Of Interest To Women.

To such women as are not seriously out of health, but who have exacting duties to perform, either in the way of household cares or in social duties and functions which seriously tax their strength, as well as to nursing mothers, Dr. Pierce's Favorite Prescription has proved a most valuable supporting tonic and invigorating nervine. By its timely use, much serious sickness and suffering may be avoided. The operating table and the surgeons' knife, would, it is believed, seldom have to be employed if this most valuable woman's remedy were resorted to in good time. The "Favorite Prescription" has proven a great boon to expectant mothers by preparing the system for the coming of baby, thereby rendering childbirth safe, easy, and almost painless.

Bear in mind, please that Dr. Pierce's Favorite Prescription is not a secret or patent medicine, against which the most intelligent people are quite naturally averse, because of the uncertainty as to their composition and harmless character, but is a MEDICINE OF KNOWN COMPOSITION, a full list of all its ingredients being printed, in plain English, on every bottle-wrapper. An examination of this list of ingredients will disclose the fact that it is non-alcoholic in its composition, chemically pure, triple-refined glycerine taking the place of the commonly used alcohol, in its make-up. In this connection it may not be out of place to state that the "Favorite Prescription" of Dr. Pierce is the only medicine put up for the cure of woman's peculiar weaknesses and ailments, and sold through druggists, all the ingredients of which have the unanimous endorsement of all the leading medical writers and teachers of all the several schools of practice, and that too as remedies for the ailments for which "Favorite Prescription" is recommended.

A little book of those endorsements will be sent to any address, post-paid, and absolutely *free* if you request same by postal card, or letter, of Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets cure constipation. Constipation is the cause of many diseases. Cure the cause and you cure the disease. Easy to take as candy.

Constipation

Baked sweet apples, with some people, bring prompt relief for Constipation. With others, coarse all-wheat bread will have the same effect. Nature undoubtedly has a vegetable remedy to relieve every ailment known to man, if physicians can but find Nature's way to health. And this is strikingly true with regard to Constipation.

The bark of a certain tree in California—Cascara Sagrada—offers a most excellent aid to this end. But, combined with Egyptian Senna, Slippery Elm Bark, Solid Extract of Prunes, etc., this same Cascara bark is given its greatest possible power to correct constipation. A toothsome Candy Tablet, called Lax-ets, is now made at the Dr. Shoop Laboratories, from this ingenuous and most effective prescription. Its effect on Constipation, Biliousness, Sour Stomach, Bad Breath, Sallow Complexion, etc., is indeed prompt and satisfying.

No griping, no unpleasant after effects are experienced, and Lax-ets are put up in beautiful lithographed metal boxes at 5 cents and 25 cents per box.

For something new, nice, economical and effective, try a box of

Lax-ets

SUICIDE OF MAJ. RUMBAUGH.

The sensational suicide in the courtroom at Colorado Springs, Col., yesterday, of Major Richard R. Rumbaugh, of Washington, an army officer, just as he was to be summoned to testify at the inquest over the body of Miss Laura Mathews, the beautiful girl found Monday on a lonely mountain slope with a bullet through her brain, injects extremely sensational features into what Monday night had been generally accepted as a case of suicide. Another startling feature is the discovery that Miss Green, the dead girl's nurse, had prepared and sent out letters announcing the suicide of Miss Mathews before the latter was dead—almost a day before, in fact. She explains this peculiar action by the statement that she knew Miss Mathews would kill herself.

Miss Green also testified that several days ago she and Miss Mathews had visited a Colorado mortuary and Miss Mathews had selected a casket and remarked: "This is the kind of casket I wish to be buried in."

Charles A. Coey, the millionaire automobile manufacturer of Chicago, whose letter the dead girl clutched in her hand, and who had sent her $200 the day before, is most frequently mentioned in the case. In interviews with him in Chicago he vehemently insisted that the girl did not commit suicide. Rumors are persistent that Major Rumbaugh was an agent, sent to Colorado Springs by eastern men, to induce the girl to commit suicide, or to otherwise cause her to disappear.

The suicide theory has been dropped altogether and the authorities are seeking to learn who met the girl on the lonely mountain, how she was lured there and how she was done to death.

Miss Matthews was a remarkably beautiful girl. Her mother lives in Kansas City, but has been estranged from her daughter for two years, while the latter appeared with various theatrical companies in the eastern circuit. Efforts are being exerted to find what connection certain highly prominent men in Chicago, New York and Washington have with the affair. Highly sensational letters have been found, but all names are withheld, although it is certain a tremendous sensation will be sprung very shortly.

STRIKE LEADER ARRESTED.

Teofilo Petriella, the active leader of the strike, was placed under arrest in Hibbing, Minn., yesterday morning, on the charge of carrying concealed weapons and was confined in the Hibbing jail.

Petriella and acting President Mahoney, of the Western Federation of Miners, were driving toward Chisholm and when near the Sellers mine the guard ordered them to stop. Instead of pulling in his horse Petriella whipped up and tried to pass. The guard fired several shots into the air, and Petriella was instantly surrounded by several deputies. He was arrested, and when searched was found to have a revolver and $900 in money on his person. He was held on the charge of carrying concealed weapons. Mahoney offered to allow himself to be searched, but he carried no weapons.

The greatest penalty that can be inflicted on Petriella is a small fine. The strikers made no attempt to gather about the jail where Petriella was confined. Mahoney returned to Hibbing after his companion had been arrested.

Petriella was released on $1,000 bail after being bound over for the action of the grand jury in September.

TROUBLE IN IRELAND.

That the authorities of Belfast, Ireland, view seriously the local situation uprising from the strike of the dock laborers for increased pay and shorter hours, which has been aggravated by the revolt of the police, who are demanding more pay because of the extra work the strike entails, is evidenced by the arrival in Belfast yesterday of the first battalion of the Cameron Highlanders with a maxim gun and a detachment of cavalry. In addition the Thirteenth Hussars are on their way into Belfast and the Berkshire and Middlesex regiments have been ordered to hold themselves in readiness to move at a moment's notice. It is expected that a total of 6,000 troops will be in Belfast within a few days. The number of emergency magistrates has been increased, and additional police inspectors are arriving to assist the local officials. The strikers were very active yesterday, and a number of dock carts were overturned.

The police of Cork are in full sympathy with the Belfast force in their demand for increased pay.

I will mail you free, to prove merit, samples of my Dr. Shoop's Restorative, and my Book on either Dyspepsia, The Heart, or The Kidneys. Trouble of the Stomach, Heart or Kidneys, are merely symptoms of a deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—means Stomach weakness, always. And the Heart, and Kidneys, as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write me today for sample and free Book. Dr. Shoop, Racine, Wis. The Restorative sold by E. S. Leadbeater & Sons.

THE MAGILL CASE.

The Magill dragnet brought in results in Clinton, Ill., yesterday, and the State's case looks better.

The important developments were testimony indicating that Fred Magill and Fay Graham, a night or two before the death of "Pet" Magill, went to Bloomington, remained all night, concocted the poison plot, purchased the drug there, and then returned to the Magill home in Clinton.

Testimony showing Fred Magill had talked to various neighbors about his wife dying, and that on the day she was found dead, in answer to a question, he flippantly remarked: "I guess she killed herself because she was nearsighted;" that Magill visited the local cemetery some time before "Pet" died and picked out two graves, which he is alleged to have said were for himself and "Pet," that he was heard to say on the day of the funeral, "I already feel the hangman's rope around my neck," that the State declares it can indict Magill and perhaps Fay, his wife, without the doctor's report of the result of the autopsy, which has not been received or heard of.

ALEXANDRIA GAZETTE AND VIRGINIA ADVERTISER.

WEDNESDAY EVENING, JULY 31, 1907.

DURING two weeks eleven children have been assaulted in New York city. Mobs have attacked police stations or individuals in six instances, driving one man overboard to death. Two children have been carried off by kidnappers. A man and a woman were murdered in the busiest portions of the city a few days ago. The Armenian community has been terrorized by the assassination of a prominent merchant and blackmailing threats of a secret society. An Armenian priest has been indicted for attempted robbery. Black hand letters demanding sums of money have kept the Italians in a turmoil, and two women, slain by a "Jack the Ripper," were found within 12 hours. This terrible wave of crime seems to be spreading to other cities, and the police acknowledge their impotency to check it. We seem to be living in perilous times.

SENATOR DUPONT, of Delaware, is the principal defendant in the suit filed against the powder trust at Wilmington, Del., yesterday. The other defendants are ten members of the Dupont family. The government alleges that the 26 companies in the trust—all controlled by the Duponts—have a practical monopoly of the manufacture of powder and other explosives in the United States. The combination was first formed in 1872, the bill alleges, and has been in control ever since. The government asks that the three big operating companies be enjoined from engaging in interstate commerce, and that, if the public interests will be better subserved thereby, receivers be appointed to take charge of these companies.

REV. JOHN WILLIAMS, representing the Nebraska Humane Society, seems to be engaged in a movement which may end in a strike of organgrinders' monkeys. He appeared before the City Council of Omaha yesterday afternoon and made a strong plea for a six-hour day for that itinerant class of simians which accompany organgrinders. He cited a case of a monkey working from twelve to sixteen hours in Omaha with an organ. Monkeys are generally regarded as parodies on mankind. They are apt scholars, and have been known to drink liquor to excess and to be guilty of many other questionable acts practiced by the genus homo, and now there is a likelihood of them becoming victims of the strike epidemic.

A SPECIMEN of the ophidian creation is said to have brought trouble to the first pair, and now snakes have caused the separation of a newly-married couple in Pennsylvania. After a honeymoon of less than a week, Mrs. Thomas Shafer, of Selinsgrove Junction, near Sunbury, has separated from her husband, charging that the house he provided for their home was so infested with copperhead snakes that she would not stay in the vicinity. She has returned to her former home in Harrisburg and coldly ignores her husband's requests that she return.

THE REIGN OF TERROR in New York seems to be spreading. A dispatch from Cumberland, Md., today states that armed men are standing guard over their homes at night because no police protection is provided and citizens are afraid even to leave their houses. The country east of Cumberland is virtually suffering from a reign of terror caused by the depredations of organized gangs of robbers. The adjoining sections of Pennsylvania and West Virginia are likewise terrorized, as the robbers have extended their scope of operations.

EUGENE E. SCHMITZ, the convicted mayor of San Francisco, who is now serving a term in jail for his many rascalities, yesterday made appointments to fill the vacancies created by the forced resignations of thirteen members of the board of supervisors, he claiming the right of appointment on the ground that he is the rightful mayor of San Francisco. A barrel stave well applied has a salutary effect on such men as Schmitz

THE PROHIBITIONISTS of Georgia have, it is claimed, virtually captured that State, and after January 1, 1908, the law officers will have about all they can do in attempts to prevent the dispensing of liquor. The manufacture, sale, giving away or storing of any liquor producing intoxication will be strictly prohibited under the new law.

THE TAFT forces were triumphant in Ohio yesterday—that is in the republican committee—and as Senator Foraker announces that he will disregard their action and appeal to the people, it remains to be seen if the latter will confirm the action of the representatives of the republican party of the State.

One man was killed and another injured, perhaps fatally, in an automobile accident in Chicago yesterday. The dead man is W. C. Temple, a chauffeur. The other is Thomas Norton, a saloon keeper.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, July 31.

Commissioner Clark, of the Interstate Commerce Commission, has ruled that in the proportionate distribution of cars to mines the railroads must take into account private and foreign cars as well as the regular system cars. The case came before the commission on the complaint of the Ohio railway commission against the Hocking Valley and the Wheeling and Lake Erie roads. The complaint was that these roads gave to mines that had private cars and the use of foreign cars their share of the regular cars without considering that this division gave them an unwarrented advantage over operators without private cars at their disposal in the mining and marketing of coal.

President Gompers, of the American Federation of Labor, today made public a letter which he sent to Secretary of War Taft, protesting against the recent admission into the United States of two lithographers, in alleged violation of the alien contract labor law. They had been imported by the American Lithographic Company. The company contended that the men should be admitted under the provision of the law, which makes an exception "when labor of like kind cannot be found unemployed in the United States." This contention was upheld by the the attorney general. Gompers characterizes Attorney General Bonaparte's decision as "far-fetched, and out of harmony with the spirit and purpose of the alien contract labor law."

The first attempt of the Filipinos at a general election for members of a legislature which is to make their laws does not seem to have been an unequalified success, at least in Manila. Apparently "the best people" stayed away from the polls, for the returns indicate that a criminal is elected in the first Manila district, while a man indicted for rebellion is contesting the election in the other district. Domindanor Gomez, who has been chosen to represent the first, is an ex-president of the nationalist party and of the Philippine labor union. He is said to be a Chinese-Spanish-Tagalo Mestizo, educated in the Philippines and in Spain, and is a physician by profession. Gomez is generally understood to have great influence among the working classes, notwithstanding the fact that he has been indicted for exploiting them for his own pecuniary benefit, and he is considered a shrewd politican. He is a stump speaker of considerable power. Justo Lukban, who claims election, in another of the Manila district is also awaiting trial under charges of conspiracy. Although the sympathies of the administration here were with the federalist party, and the victory of the nationalists, or independence elements, is, therefore, something of a disappointment, it was not entirely unexpected.

Employes on the Panama canal are to be well supplied with reading matter. Joseph B. Bishop, secretary of the canal commission, when he leaves New York for the Isthmus tomorrow will take with him 31,000 volumes of assorted history, biography, travel and fictions. Six hundred volumes each will be placed in the new buildings, recently provided for the workmen at Cristobal, Empire, Gorgona, and Culebra. The books were selected through consultation with the Young Mens Christian Association. The fiction for each library is different so it can be changed about from one library to another. The rest go to the University Club in Panama city, composed of several hundred clerical and other high grade employes. The volumes for the club were donated by General Thomas H. Hubbard, of New York city.

The legal contest between the federal government and the powder trust promises to be a battle royal. The unsuccessful attempt of the Du Ponts to delay the filing of the dissolution suit yesterday at Wilmington, Del., has created the impression at the Department of Justice that the government will be put to an unusual amount of annoyance before it can get before the United States Circuit Court the fair and square question as to whether the trust is operating legally or in violation of the anti-trust law. The power trust is the first of a half dozen great corporations already baled into court which has made any attempt to block the filling of the papers. The Du Pont's strategy, in previously filing a certificate of dissolution for its holding company, almost caught the government unawares. The Department of Justice, however, has no fear as to the legal property of its acts of yesterday and holds that the mere dissolution of the one powder company in Delaware cannot operate to throw the suit out of court.

With partial returns from other districts, it appears probable that there will be elected five more progresistas, five independents and seventeen more nacionalistas." The Nacionalistas demanded in their platform independence at once.

In recent communications to the papers, Mrs. Ayres, wife of Lieutenant Colonel Charles G. Ayres, who has just been placed upon the retired list, laid great stress upon the fact that her husband had to pay 45 cents for the message from Assistant Adjutant General McCain, apriaing him of his retirement. The telegraph office of the War Department, because all official telegrams are prepaid, made an investigation. Today the Western Union Telegraph Company reported that the message had been sent to Col. Ayres at Highland Falls, his last address, and then had been forwarded to him, collect, at Bayhead, N. J., on Col. Ayres' instructions. The operator at Bayhead has been instructed to repay all charges on the message.

TAFT ENDORSED.

The candidacy of William H. Taft, secretary of war, for the republican nomination for president, was indorsed by the republican committee at Columbus, Ohio, yesterday, by a vote of 15 to 6. The indorsement carried with it a declaration that the republicans of Ohio are opposed "to the elimination from public life of Senators Foraker and Dick."

Although beaten by a decisive vote in all the preliminary contests the adherents of Senator Foraker in the committee refused to accept the olive branch extended by the Taft supporters, and when the resolution as amended was finally adopted no effort was made to make the action of the committee unanimous.

The indorsement of Secretary Taft's candidacy by the republican State central committee was vigorously opposed by Senator Foraker, who, upon the eve of the meeting of the committee, openly voiced his dissent to the proposition. Seven of the 21 members of the committee favored Foraker's policy on all votes except that taken upon the adoption of the resolution indorsing Taft. A. W. McDonald, of the Sixteenth district, broke with the Foraker forces on the final ballot.

A. I. Vorey, the manager of the Taft campaign, declared last night the action of the committee was important in that it gave assurance to other States that Secretary Taft had the support of his party in Ohio, and would be backed by the delegation from the State in the next national republican convention.

Senator Foraker gave out the following statement yesterday afternoon.

"I cannot add anything to what I said in my open letter published yesterday morning. I wrote that letter foreseeing the result and feeling that it was my duty to give notice beforehand that I would not be bound by any such unauthorized action. The committee had no more right to speak on that subject for the republicans of Ohio than any other 21 republicans of the State might have had, and the action of the committee will not affect my course in any way. The next State convention will have authority to speak, and by the action of that convention it will be the duty of every good republican to abide. In the meanwhile, we will have our municipal elections and the benefit of occurring events in the light of all which we shall no doubt be able to act intelligently and satisfactorily."

Wreck on the Southern.

[Special dispatch to the Alexandria Gazette.]

Richmond, Va., July 31.—Conductor Dameron, of Alexandria, in charge of a Southern passenger train which runs between Danville and Washington, was in a head-on collision at Evington, near Lynchburg, this morning, and had his hip painfully bruised. Eight persons were slightly injured. Both engines were wrecked.

After the Armenians.

New York, July 31.—A trunk believed to contain papers that will completely expose the Armenian blackmailing and assassination society is said to be in the possession of the police.

The District Attorney is still raking the Armenian quarter for evidence against Father Levont Martoogessian, the Armenian priest held under $25,000 bond and charged with attempts to extort money from his countrymen.

Now that he is convinced he was used as a mere tool by the black mailers Khachadorian alias Hampartoosian is telling the police all he knew and much valuable evidence has been secured from him concerning the identities of the persons, who, he says, inspired Tavashanjian's murder.

Three additional indictments were returned today against Father Levon Martoogessian. The indictments were returned on further important evidence submitted by District Attorney Jerome. One of the indictment charges black mail and the others are for attempted robbery in the second degree, the charge in yesterday's indictment.

Martial Law Probable.

Belfast, Ireland, July 31. — The declaration of martial law will probably be the next development of the dock strike prevailing here. It would be almost impossible to exaggerate the seriousness of the situation today, and military control promises the only real relief. Even their presence has not intimidated the strikers, and there have been many acts of violence today.

The worst feature of the situation today is the open threat of the police to join the strikers. While policemen are still on duty, no reliance can be placed upon them owing to their dissatisfaction because their demand for increased pay for extra work has not been granted.

It has developed that political animus and hatred for the British government is largely responsible for the attitude of the police. Irish agitators have been playing on the officers in every way possible. On Saturday the government is to give a final answer to the demand for more pay.

New Cable.

New York, July 31.—Commercial service began today over the new cable connecting New York with Guantanamo, Cuba, and thence by a continuation across the Carribean Sea with Colon, Panama. The new connection reduces commercial message rates between the United States and Panama nearly fifty per cent. from 98 to 50 cents per word. The cable was contracted for by the Central and South American Telegraph Company with the Telegraph Construction Company of London Jan. 19, 1907, and is 2,263 and 6-10 knots long. The actual laying was done by the construction company's cable steamer Colonia in less than twenty days. It is expected that the cable works duplex, and relays will reduce the average time of transmitting messages between London and Buenos Ayres to less than thirty minutes.

Looking For Buried Jewelry.

New York, July 31.—Police and deputy sheriffs are scanning Long Beach sands today for precious stones, gold and silver ornaments, money and other portable articles of value. Some of the treasure was buried by guests of the Long Beach Hotel, who, driven from their rooms by fire early Monday, camped to the number of nearly 1,000 by the seaside until late in the forenoon. Most of it was cached, however, by looters, evidently with the expectation of returning for their plunder after the throng of scantily-clad refugees should have left for other resorts of the city. Property worth thousands of dollars has already been recovered, and every effort is being made to find the owners. Some of the guests have reported losses as high as $10,000 and scores lost from $1,000 to $2,000.

After Jack the Ripper.

New York, July 31.—The police are working today on an important clew which they think will lead to the arrest of the "Jack the Ripper" who killed a young woman in an east Ninth street alleyway early yesterday. The mutilation of the body leads detectives to the belief that the murderer is the same who killed and mutilated Gussie Peiffer under the haunted oak, on the old Pelham road, in the Bronx, in September, 1905. Both girls were strangled by persons of guerilla-like strength and the victims similarly maltreated.

Killed by a Burglar.

Chicago, July 31.—Albert Walsh, 32 years old, a draughtsman, was shot and instantly killed in his home by a burglar early today. After a struggle with L. J. Walsh, a brother of the slain man, the robber escaped by leaping over the railing of a porch into an alley, Miss Jennie Walsh, the 19-year-old sister of the young men, was awakened by the burglar who had gained entrance to the Walsh residence. She screamed and her brothers went to her aid. As they entered the room the thief shot Albert through the head.

Four Persons Killed.

Milan, Tenn., July 31.—Four persons were killed outright, another fatally injured and ten seriously hurt by the explosion early today of the boiler of an engine on an Illinois Central fast fruit train. The explosion wrecked the train as well as another freight on a paralel siding. The train was running at high speed when the boiler burst. Both trains caught fire and were destroyed.

Burning Young Woman.

New York, July 31.—Rolling about New York in a big red automobile driven by an expert chauffeur, a well-dressed man whose name the police would like to know is amusing himself by branding young women on the cheeks with a lighted cigar. A young woman was badly burned last night by the mysterious individual.

Eight persons were poisoned by ice-cream at Lewis, near Huntington, W. Va., Monday night, and may die.

Battle With An Eagle.

Tonawanda, N. Y., July 31.—Dr. S. S. Wende and John Ried, of Kingston, Jamaica, a medical student, who is spending the summer here, drove up in front of the doctor's office yesterday afternoon, with their clothing in tatters and blood trickling from a number of severe lacerations. As an explanation, the doctor pulled a magnificent specimen of the American eagle from the rear of the buggy.

Dr. Wende and Ried, while driving, had their attention attracted to a large bird circling above them. As they watched, the bird suddenly swooped down on a calf that lay beside the road, where its mother was feeding. The doctor and the student sprang from the buggy almost upon the eagle and its intended prey. The student clutched one of the bird's big wings, and to this he clung, despite the digs which the eagle gave him in its fight to free itself. The eagle nearly exhausted the men before they succeeded in getting it tied in the buggy.

Independence Parties Won.

Manila, July 31.—The Independence factions that united in the campaign under the name of nationalists appear to have won the general electric held throughout the islands. The complete returns from 50 out districts show that 31 nationalists were elected, 10 progressives eight independence candidates and one Catholic.

In Manila the nationalists won by a large majority in both districts. Dominandor Gomez claims the election in the First district in the city, while Justo Lakban contests the election of both independence candidates. It probably will be 10 days or two weeks before the complete returns are received.

Sticks to Dead Master.

Trenton, July 31.—Found dead in his home in east Trenton yesterday morning, Siegel Spencer was for more than two hours guarded by his pet bull dog, which kept away even the coroner and the police until the return of Mrs. Spencer, who had gone for a doctor and been delayed. It was with difficulty that even Mrs. Spencer could coax the dog away to permit the authorities to make an investigation, which revealed that death had been due to natural causes. Even after the body had been prepared for burial the dog made frantic efforts to get to it, all the time howling mournfully and refusing to be comforted. Spencer and the dog had been chums and companions for several years.

Seriously Injured by Dogs.

Pittsburg, July 31.—Weak and suffering from a fracture of the leg received by being knocked down by dogs chasing each other, Mrs. Margaret Wallace, aged 75 years, after being 13 days in a chair helpless without food or water, is today being nursed tenderly in a hospital in an effort to save her life. It is alleged her son John, aged 35 years, a laborer, drove away a priest at the point of a revolver and refused to summon a doctor. The son was arrested at the house. He lay intoxicated and almost naked on the bare kitchen floor. Blood poisoning has developed and it is feared the old woman will die.

Powers' Motion Sustained.

Georgetown, Ky., July 31.—Judge James E. Robins sustained Caleb Powers' motion today for a new judge to try the Powers case on the ground that Robins is prejudiced against the defense. The opinion is a long one and concludes with the judge's refusal to act further. His action will cause fresh delay, as Governor Beckham must now appoint another judge. Powers is accused of complicity in the late Governor Goebel's assassination. He has been thrice convicted, twice sentenced to life imprisonment and once to the gallows and is now up for his fourth trial.

Ultimatum to Miners.

Duluth, Minn., July 31.—Officers of the Steel Corporation today issued an ultimatum to the striking dock employes that unless they return to work within 24 hours, the corporation will prepare for trouble and cease all intentions of granting concessions. The answer of the officers agree to a partial arbitration, but requires the men to return to work without previous decision of differences. Labor leaders assert they can keep the men from returning to work and keep the mines tied up.

Forest Fires.

Bellingham, Washington, July 31.—With a front four miles in width a terrible forest fire is sweeping northward up from the Skagit river valley. Millions of feet of standing timber are directly in the path of the flames which have been raging for several days and a loss of hundreds of thousands of dollars will result unless rain soon checks the fire. Another big fire raging in Snohomish county has driven out settlers and campers and threatens the town of Index.

Accident to Little Girl.

Camden, N. J., July 31.—Romping in bed may cost the life of Olga Bennett, 10 years old. She is in a hospital today with a broken neck and an injured spine. And there is little hope for her recovery. Olga did not feel like retiring when sent to bed last night and began playing about the bed. She burrowed her head in a pillow and the action was followed by a wild scream. Her father rushed into the room to find the child injured so she could not move.

Murderer Electrocuted.

Auburn, N. Y, July 31.—Showing plainly his seventy-seven years and with his long snowy white hair in striking contrast to the sombre black in which he was dressed for his execution, Charles Bonier, of Buffalo, was electrocuted here today for the murder of Franz and Johanna Frehr. The old man walked to his death without a quiver, although the prison authorities had feared a break down.

Fish Plant Destroyed.

Dismissed from Police Force.

New York, July 31.—Found guilty of cowardice in connection with the escape from the Spaulding building last week of murderer Frank H. Warner, Patrolman Stephens Welsh was literary kicked out of the police department today. Degraded, deprived of his shield and held up as an example to be advoided to nearly a score of fellow officers, Walsh was marched to the door of police headquarters by Inspector Walsh and turned into the street.

PROHIBITION IN GEORGIA.

The Hardman-Covington prohibition bill passed by the Georgia Senate some days ago was adopted by the House yesterday evening by a vote of 139 to 39. Two amendments added by the House will necessitate the bill going back to the Senate for concurrence, of which there is no doubt, and the bill then will go to Governor Hoke Smith for his signature, which has been practically pledged, and prohibition will become a law in Georgia.

The amendments permit the sale of pure alcohol by retail druggists on the prescription of a reputable physician and also allow wholesale druggists to carry pure alcohol in stock for sale to retailers only.

The bill prohibits the manufacture or keeping on hand in any place of business, the sale or giving away to induce business, within the State, of any liquor that may produce intoxication. The new law is to become effective January 1, 1908.

THE WAVE OF CRIME.

"The hell fire gospel is what New York needs most. With more theaters than churches open Sundays, no one need be surprised at a wave of crime. Churches are not closed summer Sundays in Atlanta, Ga. New York is the wickedest city on earth, except Paris. Of course, Chicago does not count. Chicago cannot be compared with a civilized community. Talking to a New York policeman is like talking to a bull yearling on the prairies. There is a complete breaking down of the barriers between the sexes in New York."

Because he loves New York, he interjected, Rev. Len G. Broughton, D. D., pastor of the Atlanta Tabernacle and the leading Baptist preacher of the South, yesterday, in the above words, lashed the metropolis for its flaunting hilarity at night, its closed churches on Sunday, its boorish and inefficient police force and the immodesty and intemperance of the women who drink in the restaurants and cafes.

MRS. AYRES INDIGNANT.

Mrs. Elizabeth Fairfax Ayres, wife of Lieutenant Colonel Ayres, recently retired, yesterday published a statement charging that the retirement of her husband without advanced rank is base ingratitude. Mrs. Ayres, whose leading part in the "overcoat incident" at West Point brought about the army squabble that ended in her husband's retirement in order to avoid the necessity of a court-martial for him for unfriendly criticism of brother officers, declares that Colonel Ayres, serving with the Tenth Cavalry, saved President Roosevelt's troops at San Juan Hill. She speaks of the "vicious treatment" the colonel has received from brother-officers, and adds, "from the President, whose command he saved on the night of July 2, 1898, on San Juan Hill."

Mrs. Henry E. Youtsey, wife of Henry E. Youtsey, formerly stenographer for W. S. Taylor during the latter's brief reign as governor of Kentucky in 1900, and who went on the witness stand in the Caleb Powers case at Georgetown in 1903, and swore that Powers gave him the key to his office in the statehouse at Frankfort, so he (Youtsey) could enter and allow James Howard to shoot Goebel from there, yesterday made a sensational affidavit to the attorneys for the Powers defense. She declared that her husband was forced to confess to Powers' connection with the Goebel killing because of his treatment in the penitentiary, which Mrs. Youtsey describes as little short of "hellish."

Frederick Ford, of Philadelphia, became insane in a New York Central express train after leaving Albany, yesterday, and made several efforts to kill his two-year-old daughter by throwing her from the window of the train as it was speeding along, but was prevented by passengers. Ford also tried to make away with himself by leaping from the train, but was restrained and held captive by members of the train crew until New York was reached, when he was sent to Bellevue Hospital.

The railroad commission has issued a ruling in Austin, that under the anti-free pass law full rates must be paid for the transportation of advance cars of circuses and their representatives. This proposed increase in their expenses has caused the circuses and traveling shows to wipe Texas off the routing map, according to the statements of their representatives.

New York Stock Market.

New York, July 31.—After a slight show of strength at the opening the market became heavy under some liquidation and selling by room traders that continued all through the first hour, caused declines averaging about 1 point in nearly everything traded in.

SENATOR MACHEN'S AMENDMENTS.

A dispatch from Richmond says the action of State Senator Louis H. Machen of this city, with reference to his two amendments to the cogsitution, which, because they do not appear on the senate journal, may become void, is awaited with interest. Attorney General Anderson who has been preparing an opinion on the subject, has officially declared the amendments void. It is expected that Senator Machen will apply for a writ of mandamus in order to have the amendments printed in the newspapers in accordance with the constitution.

Acting on the advice of the attorney general, Speaker Caldwell, of the house, has directed Clerk Williams not to print the amendments in the newspapers unless ordered to do so by the courts. Even if Senator Machen succeeds in having the amendments printed, that may be contested and in the end declared unconstitutional.

DELAYED STEAMER.

On account of an accident to the air pump on the steamer Calvert, of the Maryland, Delaware and Virginia Railway Company, shortly after she left this port last Saturday evening, the steamer arrived at Baltimore yesterday morning 24 hours late.

The steamer left Washington as asual Saturday afternoon and was off Jones's Point when the mishap occurred. She returned to Washington for repairs and the passengers were transferred to the steamer Anne Arundel, which carried them to Baltimore.

After repairs the Calvert left again for Baltimore Sunday afternoon at 4:30 o'clock. When near Mount Vernon the pump broke down again and the steamer made her way back to Washington. At 9 a. m. she started for Baltimore, arriving without further mishap.

COLORED MAN CUT.

Early last night a difficulty occurred in Fayette alley, near the Strand, between John Seth and Alfred Stanton, both colored, during which the former slashed the latter on the right side of the head with a knife, making an ugly and dangerous wound. Lieutenant Smith and Officers Bell and Henderson soon had Seth in custody. Stanton bled profusely and later became visibly weaker, so much so that he was unable to tell the cause of the difficulty, and was removed to his home on Queen street, where he was attended by Dr. Payne. His injury is said to be serious. Seth was brought before the Police Court this morning, but the examination of the case was postponed until Stanton is able to appear.

UNLICENSED DOGS.

Officer Garvey yesterday made a movement against certain negroes who keep unlicensed dogs. He brought two colored women to the bar of the Police Court this morning whom he charged with evading the law, and they were fined $3 each. It is hoped that each member of the force will follow his example and vie in bring before the court all white and colored people who persist in harboring canines and refuse to pay licenses on the same. A resident of the southwestern section of the city recently told a representative of the Gazette that it was often impossible to sleep at night by reason of howling dogs. Some darkeys, it is said, keep several curs.

CHIEF PETTEY'S REPORT.

The following is the record of service of the fire department of this city, prepared by George W. Pettey, Chief Engineer, during the fiscal year, commencing August 1, 1906, and ending July 31, 1907: There were 31 fires at which the department was in service, 15 of which were extinguished with chemicals and 22 by water. The total number of fire alarms was 69. The department was in service 18 hours and 30 minutes and used 18,500 feet of hose. The department has on hand and in use 3,500 feet of serviceable hose and 800 feet of unserviceable hose. The chief's report shows the department to be in excellent condition.

THE NEW RAILWAY STATION.

The old Sixth street passenger station in Washington, erected in 1873, will be abandoned about October 15, according to a communication made to the Commissioners of the District of Columbia by Joseph Crawford, general agent of the Philadelphia, Baltimore and Washington Railroad Company. At that time all trains on the Pennsylvania, Southern, Chesspeake and Ohio, Atlantic Coast Line, Seaboard Air Line, Richmond, Fredericksburg and Potomac, and other systems that run into the Sixth street station will enter the new union station.

RUNAWAY.

Two well-known citizens while driving through Braddock Heights late yesterday evening had an exciting experience. The horse being badly harnessed, started to run. Both gentlemen toyed with the reins to the discomfort of the animal, and apprehension of those who witnessed the predicament of the occupants. This morning one the citizens exhibited a sprained wrist and his companion a twisted ankle. The team has nothing more than scratches on the dash board.

ACCUSED DISMISSED.

George England was cited by Constable Payne to appear before Justice Triplett in Fairfax county, yesterday, to show cause why he should not be fined for cutting grass in the streets of New Alexandria. Mrs. Ella Dobson was the complainant in the case, and the accused was dismissed, the costs being assessed against the plaintiff.

POLICE COURT.

[Justice H. B. Caton presiding.]

The following cases were disposed of this morning:

John Henry, colored, charged with attempting to escape from jail, had 30 days added to his term of imprisonment.

Edward Miller, colored, arrested on suspicion of stealing harness in Fairfax county, was held for the Fairfax authorities.

A white man, charged with disorderly conduct, was fined $5.

Gertrude Stewart, colored, charged with disorderly conduct, was fined $5.

George Massey, charged with vagrancy, was fined $5.

John Seth, colored, charged with cutting Alfred Stanton, also colored, had his case continued, Stanton being unable to appear.

A colored man and two colored women, charged with maintaining nuisances on their premises, were ordered to abate the same immediately. The women were fined $3 each for harboring unlicensed dogs.

AFTER VAGRANTS.

Special Officer William Mullen at an early hour this morning arrested a youth named George Massey on the charge of vagrancy. He was later brought before Justice Caton in the Police Court when he was fined $5. Should Massey fail to pay the assessment, he will be given a term in jail. He is one of a gang of youths who loaf about the wharves day and night, sleeping in wagons and lumber yards. Some of the youngsters have at times given trouble, and people who conduct business on the river front hope Mr. Mullen's action will be initiative in a movement toward compelling this class of young men to procure employment.

WANT ELECTRIC LIGHT.

Residents of Alexandria county are importuning the Washington Southern Railway Company to place an electric light at the approach to the new highway bridge recently erected near what was formerly St. Asaph station. They also suggest that a sign be placed near the structure. At night people unacquainted with the changed conditions often drive teams past the bridge and find themselves entangled in railroad tracks farther north.

WOMEN STRANGLED

The bodies of two women, with the marks of a strangler on their throats, have been found in New York within 12 hours and the police yesterday have cast a dragnet over the city to catch the slayer. The police believe that one man committed both crimes. One woman was found dead early yesterday in an areaway on east Ninetieth street. The marks of a thumb and forefinger were visible on her throat and her face and neck were smeared with blood. No one in the neighborhood heard sounds of a struggle.

As has been stated, the body of the other woman, also the victim of a strangler, was found Monday night in a Twenty-second street boarding house.

A necktie had been knotted tightly around her throat and she had been dead for several hours. The blood vessels in the neck were broken and the woman's clothing was drenched in blood. No trace of the man, who had the appearance of a foreigner, has been found.

An examination of the bodies of the strangler victims disclosed the fact that both had been mutilated. This fact leads the police to believe that both murders were committed by a person or persons possessed of an insane impulse to mutilate the bodies of their victims.
